

City of Jonestown proudly became an International DarkSky Community in January 2024

Bright lights do not equate to greater safety.

Glare from unshielded lighting reduces safety.

Outdoor lighting is intended to enhance safety and security at night, but too much lighting can actually have the opposite effect. Visibility should always be the goal. Glare from bright, unshielded lights actually decreases safety because it shines into our eyes and constricts our pupils. This can not only be blinding, it also makes it more difficult for our eyes to adjust to low-light conditions.

QR Code to City of Jonestown Lighting Ordinance

Simple lighting shields found online can turn your lights into "responsible lighting fixtures."

Better Lights for Better Nights!
